SUMMARY

This report presents the 2016 Budget Committee (BC) Recommended Tax Supported Operating Budget and seeks Council's approval for service spending plans, service levels, and associated staffing detailed therein. The 2016 BC Recommended Tax Supported Operating Budget is \$10.064 billion gross and \$3.931 billion net (excluding the Scarborough Subway Extension Special Levy).

The 2016 BC Recommended Tax Supported Operating Budget focuses on transit services, traffic congestion strategies, public safety and wellness, arts and culture, parks and recreation. It makes key investments in keeping people moving with improved support to the City's most vulnerable residents through various poverty reduction initiatives of \$45.504 million gross and \$29.396 million net. In addition to maintaining current service levels, the City will make new investments while keeping the costs of City services affordable with a residential property tax increase of 1.3%.

For a fourth consecutive year, use of the prior year's surplus was eliminated. However, the 2016 BC Recommended Tax Supported Operating Budget is reliant on the assumption the Municipal Land Transfer Tax (MLTT) stabilizing at the 2015 actual level or increased by \$100.5 million from the 2015 Approved Operating Budget, one-time revenue sources such as dividends and reserve contributions as well as a \$11.2 million in unidentified reductions to be allocated across the City's Programs and Agencies. The 2016 BC Recommended Operating Budget has not addressed the City's fundamental fiscal challenges or risks. Therefore, 2016 is a transition year to a more material

discussion which must be held with City Council prior to the 2017 Budget process with the goal of achieving a sustainable fiscal plan.

Furthermore, the 2016 BC Recommended Tax Supported Operating Budget includes a 25-cent cash fare increase and 10-cent increase for tokens and requires a 0.9% average tax levy increase over the 2015 budget which is well below the general rate of inflation. Based on the City's tax policy, this results in a 1.3% residential and 0.43% non-residential property tax increase. With City Council approving the final year of the three year phase-in of the additional tax levy for the Scarborough Subway construction (0.6% residential and 0.2% non-residential) the overall recommended total municipal tax increase for 2016 will be 1.3% resulting in a 1.9% residential and a 0.63% non-residential tax rate increase.

2017 and 2018 Plan

The City continues to face budgetary pressures in upcoming years. It is estimated that the pressure in 2017 and 2018 will be \$449.8 million and \$246.6 million respectively. The pressures are primarily being driven by:

- Expenditures due to inflationary costs of providing prior year services and service levels including cost of living adjustments and the annualization of costs for 2016 service investments. In addition, TTC's costs continue to grow including service improvements with the full implementation of Presto.
- Substantially slower revenue growth driven by lack of projected increase in the MLTT revenue, loss of Provincial funding and reversal of one-time revenue sources used to balance the 2016 budget.
- Demand for new service investments.

As a result, the 2017 and 2018 Plan continues to contain fiscal risks that the City needs to manage, such as revenue reliance on the MLTT and increase in TCHC expenses. In addition, addressing unmet capital needs of over \$22 billion will incur significant operating impact on future debt servicing charges.

In preparation for the 2017 Budget process, City Council needs to determine what the City wants "to be", establish spending priorities for desired outcomes and explore all revenue funding options. Strategies will be brought forward to support Council's decision making in this regard.

RECOMMENDATIONS

The Budget Committee recommends the following to Executive Committee for recommendation to City Council:

1. City Council approve the 2016 Budget Committee Recommended Tax Supported Operating Budget of \$10.064 billion gross and \$3.931 billion net excluding the special levy for the Scarborough Subway Extension, and \$10.105 billion gross and \$3.972 billion net including the special levy for the Scarborough Subway Extension, as detailed in Appendix 1 and consisting of:
 - i. a Base Budget of \$10.019 billion gross and \$3.902 billion net to maintain core services and service levels;
 - ii. an investment in strategic new and enhanced service priorities of \$45.504 million gross and \$29.396 million net; and,
 - iii. funding for the Scarborough Subway Extension of \$24.846 million gross and net from the 2014 and 2015 special levy and additional \$15.853 million gross and net from the 2016 special levy.
2. City Council approve the Recommendations for City Programs and Agencies as detailed in Appendix 4.

Financial Impact

2016 Operating Budget Overview

The 2016 BC Recommended Tax Supported Operating Budget is \$10.064 billion gross and \$3.931 billion net, resulting in a \$78.9 million increase in gross expenditures and an \$82.6 million increase in net expenditures over the 2015 Approved Operating Budget. The \$82.6 million Net Operating Budget increase has been funded by an overall tax rate increase of 0.9% after assessment growth, which is below the general rate of inflation, as outlined in Table 1.

2016 Budget Committee Recommended Changes

The 2016 BC Recommended Tax Supported Operating Budget reflects changes made by Budget Committee on January 26, 2016 to the 2016 Preliminary Operating Budget as outlined in Table 2 below. The Budget Committee recommended the addition of \$34.143 million gross and \$28.771 million net for new service investments for the following:

- Year 3 of the 4 year \$25/capita phase-in of funding for Arts and Culture.
- Transit Service Improvements.
- Poverty Reduction.
- Mayor's Task Force on Toronto Community Housing initiatives.
- Transportation and Traffic Congestion.
- Emergency Services Prevention and Response.
- Expanding Toronto's Tree Canopy.

The 2016 Budget Committee recommended changes will be funded by an increased contribution from the Social Housing Stabilization Reserve and corporate revenues combined with a decrease in discretionary expenditures for City Programs and Agencies and further reductions in Toronto Police Service's and TTC's base budgets.

Balancing the 2016 Operating Budget

The opening service/cost pressures that the City faced in 2016 is not new. During the 2015 Budget process Committee and Council were advised that balancing the 2016 operating pressure of \$426 million prior to a property tax increase would be a significant challenge moving forward. It was further identified that annual inflationary tax increases are insufficient to cover growing gross expenditures (specifically compensation costs in certain City Programs and Agencies). The 2016 Operating Plan pressure forecasted at that time of \$426 million was equivalent to a residential property tax impact of approximately 16%.

The actual 2016 expenditure pressure facing the City is \$426.1 million, detailed in the Chart 1 below. Compensation and benefits total \$139.9 million driven by the Toronto Transit Commission, Toronto Police Service and other City Programs/Agencies. Non-labour inflationary impacts amount to \$9.9 million. The annualized cost of implementing 2015 service investments totals \$85.0 million of which \$50.0 million arises from the Toronto Transit Commission service changes introduced in 2015. Reversal of one-time reserve funding amounts to \$25.6 million owing to Shelter, Support and Housing's unsustainable reserve contribution in 2015 to "stop-gap" base service funding. In addition, continued use of the City's policy to increase CFC by 10% created a \$17.8 million pressure and \$41.1 million is required to repay debt based on the City's Capital Program. Other base budget changes total \$55.0 million. Replacing the Provincial funding shortfall for Toronto Pooling Compensation requires an additional \$43.8 million in 2016.

Chart 1
2016 Operating Budget Pressures
(\$ Millions)

Expenditure balancing strategies resulted in line-by-line review savings (\$8.8 million), base changes to achieve target (\$136.1 million), efficiency savings (\$13.7 million) and reductions to solid waste management rebates (\$11.9 million) for a total of \$170.5 million.

In addition, a total of \$202.3 million in revenue changes further reduced the overall pressure. Key contributors to the revenue changes include additional MLTT revenue (\$100.5 million), user fees (\$8.2 million) and other revenue changes such as uploading of service costs to the Province and one-time change in reserve contributions (\$75.3 million). In addition, the Toronto Transit Commission fare increase accounts for a revenue increase of \$18.3 million.

Budget Committee recommended new and enhanced services initiatives that amount to \$29.4 million net, as noted in Chart 2 below. After assessment growth, the final pressure of \$34.347 million will be offset by a 1.30% residential property tax increase (excluding the Scarborough Subway Extension Special Levy).

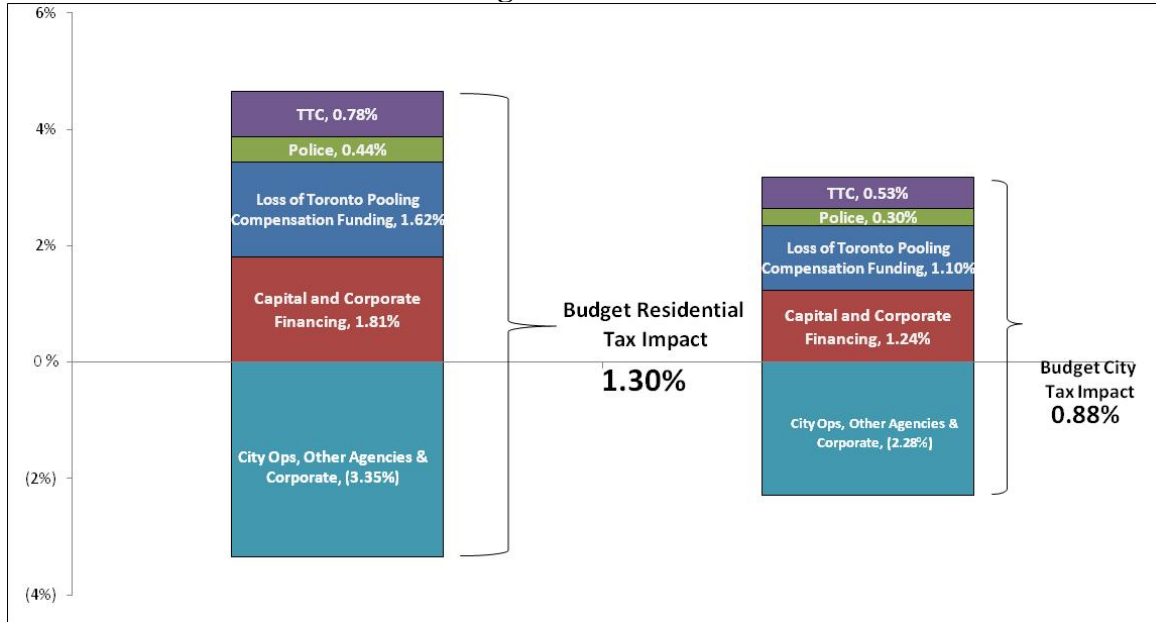

Chart 2
2016 Balancing Actions
(\$ Millions)

Drivers of the 2016 Budget Tax Increase

The Budget Committee recommended residential tax increase of 1.30% will fund increases in operating budgets for Capital and Corporate Financing (1.81%), loss of Toronto Pooling Compensation funding (1.62%), Toronto Transit Commission (0.78%) and Toronto Police Service (0.44%), as shown in Chart 3 below. The proposed increase has been largely mitigated by budget reductions that has brought the Net Operating Budget for other City Programs and Agencies below the 2015 approved levels by 3.55% achieved through line-by-line review savings, base changes to achieve target, efficiency savings and revenue changes.

Chart 3
Budget Tax Increase

The City is committed to reduce business property tax ratios to 2.5 times residential taxes by 2020 to enhance its business competitiveness. When combining the City's policy to shift two-thirds of the budgetary property tax increase from non-residential to residential and the City's special tax levy for the Scarborough Subway, the total residential tax increase is 2.67% and total City tax increase of 1.28% as shown in Chart 4 below.

Chart 4
Budget Tax Increase Including Scarborough and CVA Shift

The City's fundamental fiscal challenges have not been addressed in the 2016 BC Recommended Tax Supported Operating Budget. Therefore, 2016 is a transition year to a dialogue which must be held with City Council prior to the 2017 Budget process with the goal of achieving a sustainable fiscal plan.

COMMENTS

Setting the Context for 2016

92.3% of the Net Expenditure Growth from 2007 to 2016 is Driven by Emergency Services and the TTC

Since 2007, the net expenditure growth has been driven by Emergency Services (includes the Toronto Police Service, Toronto Fire Services, Toronto Paramedic Services) and the Toronto Transit Commission and Wheel-Trans. Together, these City Programs and Agencies accounted for approximately 92.3% of the cumulative net expenditure increase during the 2007 to 2016 time frame. The uploading of Ontario Works and court security costs has resulted in an overall decrease in net funding for cost shared Programs. This room, combined with continued productivity gains has absorbed much of the growth in other City Programs and Agencies Budgets, bringing the level of growth for all other to less than 8%.

Chart 5
Cumulative Net Expenditure Growth from 2006 to 2016
(\$Millions)

Growth In Property Tax and Municipal Land Transfer Tax

Chart 6 below sets out the increase in property tax, assessment growth and MLTT from 2007 to 2016. Since its inception in 2008, revenue from the MLTT has grown at a faster rate than revenue from property tax increases and assessment growth. This has led to the City becoming increasingly reliant on the MLTT as a source of revenue to balance operating budget pressures. Over the long-term, this approach is not fiscally sustainable given the potential for volatility in the Toronto housing market. It is imperative that, in addition to continuously exploring opportunities for expenditure reductions, the City

commit to implementing funding tools that grow over time to keep pace with expenditure increases.

Chart 6
Growth In Property Tax and Municipal Land Transfer Tax

Cumulative Property Tax Increase Since Amalgamation

The City's cumulative total tax levy increase has been lower than the general rate of inflation, as shown in Chart 7 below. Historically, total property tax increases below the rate of inflation have contributed to a widening gap between the City's expenditures and revenues.

Chart 7
Cumulative Property Tax Increases since Amalgamation

Annually the City experiences service costs that grow at a faster rate than revenue sources. For 2016, the BC Recommended Operating Budget while balanced, relies heavily on increased MLTT revenues.

Where the 2016 Operating Budget Will Be Spent

Chart 8 below shows that approximately 27.2% of the 2016 BC Recommended Tax Supported Operating Budget of \$10.064 billion gross will be spent on services that the City has no direct control over as they are mandated and/or cost-shared with the Province. These include Shelter, Support and Housing Administration, Toronto Public Health, Children's Services, Long Term Care Homes and Services and Toronto Employment and Social Services (blue segment).

In addition, Transportation and Transit Services account for 22.3% (green segment). Emergency Services, which includes the Toronto Police Service, Toronto Fire Services and Toronto Paramedic Services represents 17.6% of the total.

Altogether, these services plus the repayment of debt and other capital costs represent almost 74.4% of the City total gross expenditures for 2016.

Chart 8
Where the 2016 Operating Budget Will Be Spent
(\$Millions)

Where the Money Comes From

As show in Chart 9 below, the 2016 BC Recommended Tax Supported Operating Budget of \$10.064 billion gross is funded from various sources. Municipal property tax is the funding of last resort. Therefore, the City maximizes all other sources first. Funding is comprised of Provincial (\$1.955 billion) and Federal (\$0.155 billion) transfers representing 21.0%; user fees, charges and fines of \$1.876 billion or 18.6% (which includes a Toronto Transit Commission cash fare increase of 25-cents and 10-cents for tokens); other revenues of \$1.616 billion or 16.1%; and, property tax revenue of \$3.931 billion or 39.1%. Gross revenues from the Municipal Land Transfer Tax amount to \$532.028 million or 5% of the total revenues. It should be noted that, in the absence of the MLTT, the proportion of property tax revenues would have increased by an equal value to 44%.

Chart 9
Where the Money Comes From
(\$Millions)

Where 2016 Property Taxes are Spent

When translated into an average tax bill, Chart 10 below shows how property taxes of \$2,748 for the average household valued at \$549,596 will be spent.

Approximately 71% or \$1,943.90 will be spent on Toronto Police Service, Toronto Transit Commission (including Wheel-Trans), repaying the principal and interest costs for debt borrowing (debt servicing for capital works), Toronto Fire Services and Shelter, Support and Housing Administration.

The remaining \$804.10 or 29% of the property tax bill funds are other services delivered by the City, including Parks, Forestry and Recreation, Transportation Services, Toronto Public Library, Toronto Employment and Social Services, Children's Services, Facilities, Real Estate, Environment and Energy, Toronto Paramedic Services and Toronto Public Health.

Chart 10
Where the 2016 Property Taxes are Spent

It should be noted that \$41.92 is being dedicated to covering the City's debt servicing costs for its proportion of funding for the Scarborough Subway Extension project.

New and Enhanced Services and Service Levels

The 2016 BC Recommended Tax Supported Operating Budget provides funding of \$45.504 million gross which will require tax funding of \$29.396 million for new and enhanced services and service levels. Investments in enhanced services or to introduce new services are based largely on Council priorities that have been referred to the Budget process for consideration.

As set out in Table 3 below, 0.1% or \$4.95 million net of the 0.9% recommended total tax rate increase will fund costs to maintain current services and service levels and 0.8% or \$29.4 million net is dedicated to fund investment in new and enhanced services.

Investment in Arts and Culture:

The 2016 BC Recommended Tax Supported Operating Budget includes dedicated funding of \$5.0 million gross and net to support the Arts and Culture \$25 per capita phase-in. Key investments include:

- Increased funding for the Toronto Arts Council Grant Program to bring the total contribution to \$18.0 million (\$2.0 million gross and net).
- Additional funding for Local Arts Service Organizations which will bring the portfolio of grants to \$1.633 million (\$0.372 million gross and net).
- Increased funding for the Major Cultural Organization Program which is one of three main cultural programs that support the annual operation of the City's cultural organizations (\$0.675 million gross and net).
- Enhancements to Nathan Phillips Square Cultural Programs (\$0.217 million gross and net).
- 2 new positions to support the film permit team (\$0.275 million gross and net).

Poverty Reduction:

The 2016 BC Recommended Tax Supported Operating Budget includes a significant investment of \$6.072 million gross and \$5.327 million net to aid in reducing poverty.

Examples of major investments include:

- New and expanded services at various Toronto Public Library branches throughout the City, such as youth hubs, digital innovation hub, internet Wi-Fi hotspot lending and Sunday operating hours (\$0.958 million gross and net).
- Expansion of the Homemakers and Nurses Services (HMNS) Program to meet the needs of a growing population of vulnerable residents living in poverty (\$0.750 million gross and \$0.150 million net).

- Enhanced cold weather drop-in services (\$0.416 million gross and net).
- Expansion of Student Nutrition to new sites (\$0.853 million gross and net).
- Strengthening current programs for Student Nutrition (\$0.642 million gross and net).
- Re-establishment of the Toronto Youth Employment Program which links vulnerable youth to employment resources, skills development and educational programs (\$0.633 million gross and net).

Mayor's Task Force on Toronto Community Housing:

The 2016 BC Recommended Tax Supported Operating Budget provides funding of \$5.475 million gross and net to support the Mayor's Task Force on Toronto Community Housing. Key investments include:

- Increase Door Access System funding (\$1.300 million gross and net).
- Implementation of a cost relief program for rent to geared income residents paying for electric heating (\$1.200 million gross and net).
- Implementation of evening and weekend cleaning (\$0.700 million gross and net).
- Introduction of various social programs (\$1.140 million gross and net), such as:
 - Post-secondary certified employment training.
 - Peer-to-peer mentoring.
 - Youth entrepreneurial program.
 - Adult second career pilot.
 - Active Living quarterly events.
 - Sports-based after school programming.
 - Intergenerational active living programs.
 - Youth internship program.
 - Recruitment of staff (90% residents) to administer proposed expanded programming.

Transit Service Improvements:

Toronto Transit Commission cash fare increase of 25-cents and 10-cents for tokens will fund in part the following improvements:

- Proof of payment fare inspection (\$1.651 million gross and net).
- Streetcar service reliability to support improved operating practices (\$2.100 million gross and \$1.200 million net).
- Earlier Sunday morning subway, connecting bus and streetcar service to start at 8:00 am (\$1.700 million gross and \$0.600 million net).

Transportation and Traffic Congestion:

- Addition of 11 seasonal Inspectors of Municipal Construction to alleviate traffic disruption (\$1.095 million gross and \$0 net).
- Implementation of 30km/h speed limit within the Toronto and East York District (\$0.400 million gross and \$0 net).
- Paid off-duty police officers to manage traffic at construction sites (\$0.250 million gross and net).
- Implementation of the Strategic Rehabilitation Plan for the F.G. Gardiner (\$0.700 million gross and \$0 net).

- Provide review/approvals for the Eglinton Crosstown and Finch West Light Rail Transit projects (\$0.259 million gross and \$0).
- Cycling Infrastructure and Programs Unit to deliver cycling network projects (\$0.136 million gross and \$0 net).
- Implement strategy to replace and install new ring-and-post bicycle parking (\$0.650 million gross and \$0 net).

Emergency Services Prevention and Response:

- 2 new Superintendents - Operations and 57 new Paramedics (\$3.228 million gross and net). This represents the fourth year of a four year investment to meet service demands from an aging population and reduce response times.
- 17 additional staff for fire prevention, public education and inspection to reduce incidence of fires and other emergencies (\$0.693 million and net).

Tree Canopy:

- Increased funding for tree planting and maintenance based on Parks, Forestry and Recreation's Urban Forestry Service Plan (\$1.664 million gross and net).

Good Governance:

- New funding to extent the Participatory Budgeting Pilot for 2 years (\$0.138 million gross and net).
- Funding for 2 positions to enable the Auditor General's Office to begin to reduce the backlog of projects and reduce the City's risk exposure (\$0.211 million gross and net).
- 1 additional solicitor for Legal Services' Planning Group to manage increased planning and tribunal work (\$0.129 million gross and net).
- 1 new solicitor to satisfy increased demand from the Affordable Housing Office (\$0.160 million gross and \$0 net).
- 1 additional Municipal Licensing and Standards solicitor for prosecutions of special projects (\$0.198 million gross and \$0 net).
- Addition of 2 solicitors for insurance claims work (\$0.329 million gross and \$0 net).

A detailed list of all new and enhanced services is set out in Appendix 2.

User Fees and Other Charges

The City of Toronto Act (2006) enables the City and its Local Boards to charge user fees to recover the cost of services. At its special meeting of September 26 and 27, 2011 Council approved a User Fee Policy, which provides the framework for managing the City's user fee program. This policy applies to all City Programs and Local Boards.

With the exception of annual inflationary increases, TTC fares as well as certain market-based fees charged by Local Boards, City Council must authorize new fees and changes to existing user fees for services provided to the general public by all City Programs and Local Boards. Annual inflationary adjustments are automatic and effective January 1

each year. Authority is delegated to the Deputy City Manager & Chief Financial Officer to determine the annual inflation rate for user fees.

The inflationary adjustment applied to each user fee service is based on a blended rate of the specific inflation for each component cost represented in the basket of goods utilized to provide the service. This method reflects more accurately the overall inflation for the services provided, in some cases resulting in a rate increase greater than 1.3%. Fees are also adjusted to reflect market prices, where applicable, and/or to recover an incremental amount of the full cost of providing the related user fee services.

- Table 4 below summarizes by City Program and Agency the incremental revenues from changes to existing user fees and recommended new user fees. Excluding the TTC, price changes to existing user fees and new user fees will generate incremental revenues of \$14.251 million in 2016. Of this amount, \$8.733 million will be raised from inflationary and market price comparisons and \$5.518 million from new fees.
- Detailed explanations of the entire user fee changes are set out in Briefing Note entitled "Changes to Existing User Fees and New User Fees in the 2016 Preliminary Operating Budget"; forwarded to the Budget Committee for consideration at its meeting of January 5, 2016. In addition, the 2016 BC Recommended Tax Supported Operating Budget includes \$18.300 million from a cash fare increase of 25-cents and 10-cents for tokens for the TTC, specifically dedicated to fund transit service improvements.

2016 Recommended Staff Complement

The 2016 BC Recommended Tax Supported Operating Budget results in the net addition of 653.7 positions (341.6 base position increases and 312.1 position increases for new and enhanced initiatives).

The net increase of 341.6 base positions is mainly driven by:

- Base changes (increase of 258.5 operating and 72.5 capital positions) resulting mostly from operating position increases in Long-Term Care Homes and Services due to re-opening of Kipling Acres and rising acuity needs, as well as TTC positions required to maintain service levels and meet ridership growth.
- Impact of capital project delivery mostly driven by:
 - Parks, Forestry and Recreation (26.77 additional positions) to ensure the Program can meet capital delivery expectations for management of the growing number of new projects and the increased state of good repair backlog projects.
 - Fleet Services' implementation of the Automated Odometer Download pilot project to installing Vehicle Identification Boxes on an estimated 3,000 City of Toronto units (8 additional positions).
 - Facilities, Real Estate, Environment and Energy (7.25 additional positions) to support the capital project delivery of the Closed Circuit Television (CCTV) Infrastructure and Physical Security Enhancement Initiative, Channel and Counter Strategy capital project, and delivery of diverse channel options and optimal counter services across the City.
- Operating impact of completed capital projects mainly due to:
 - Parks, Forestry and Recreation's increase of 4 permanent and 12.5 temporary positions required for new park developments and recreation facilities.
 - Information and Technology requires 12 new permanent operating positions to sustain completed capital projects including: the Business Continuation and Disaster Recovery Program, Enterprise Business Intelligence Framework, Enterprise System Management Implementation, Project Tracking Portal implementation, Capital Planning and Co-ordination Automation, Toronto Building Electronic Service Delivery Portal, IBMS System Enhancement and Integrated Business Management Reporting.
- Positions arising from prior year impact and annualizations are mainly driven by Parks, Forestry, and Recreation's requirement to provide staffing for full year operations (45 positions) for the delivery of the Youth Spaces and After School Recreation Care expansion approved in the 2015 Budget cycle, as well as the new recreation facilities which opened to the public in 2014 and 2015, including the Toronto Pan Am Sports Centre (TPASC), York Community Centre and the Regent Park Community Centres. These increases are partially offset by a deletion of positions no longer required to support Pan Am games.

- These base increases are partially offset by efficiency savings and reductions of 106.4 operating positions (75 permanent and 31 temporary) resulting from operational reorganizations and staff adjustments.
- The net increase of 312.1 new positions (286.1 operating and 26.0 capital) is mostly driven by TTC service enhancements (67 positions), addressing operational challenges with the Social Assistance Management System (66 positions), addressing increasing trends in emergency paramedic calls (59 positions), addressing project requirements of Light Rail Transit and other traffic projects (26 positions) and extending outdoor rink season and recreation programs (23.1 positions).

Please refer to Appendix 3 for position details by City Program and Agency.

Future Year Challenges and Risks

The 2016 BC Recommended Tax Supported Operating Budget is balanced achieving the target of only 1.3% residential property tax increase. However, the budget contains fiscal risks that the City needs to be aware of. The budget is balanced based on the assumption that the all-time-high MLTT revenue realized in 2015 will be sustainable, which represents a \$100.500 million increase from the 2015 budget, as set out in Chart 11 below. It also utilizes various one-time strategies such as reserve contributions and dividend payments, which will drive additional pressures on the next budget year. The City needs a sustainable long-term fiscal plan to address these risks.

Chart 11
Balancing Measures
(\$ Millions)

2017 and 2018 Operating Plan

Approval of the BC Recommended Operating Budget will result in the 2017 and 2018 Operating Plan pressures of \$449.8 million and \$246.6 million respectively as shown in Table 6 below.

The pressures are primarily driven by the TTC/Wheel-Trans for implementation of the Presto payment system and ridership growth, inflationary costs of providing 2016 services and service levels including compensation, the annualized cost of 2016 decisions, the operating impact of completed capital projects and the depletion of reserves. In addition capital from current, debt charges, tax deficiencies, and funding of employee related liabilities are all projected to increase over the 2017-2018 period.

These increases are anticipated to be partially offset by increases in projected revenues from the TTC and continued uploading of service costs to the Province for Ontario Works benefits, court security and prisoner transportation costs.

The one-time solutions used to balance the 2016 BC Recommended Tax Supported Operating Budget will be reversed in 2017 and subsequently drive additional pressures of \$36.8 million. Resulting from the reversal of \$19 million contribution from reserves and the one-time revenues from the Toronto Parking Authority and Toronto Port Lands Corporation respectively.

In 2017 and 2018 balancing the Operating Budget pressures will be a challenge. Annual inflationary tax increases are insufficient to cover growing expenditures (especially compensation costs in certain City Programs and Agencies). It will be critical that the City find budget adjustments to compensate for loss of the Toronto Pooling

Compensation grant. Furthermore, the City will need to eliminate \$19 million in unsustainable reserve funding for 2017.

Incremental Revenue Growth

Incremental tax revenue growth forecast for the next five years, as a percentage of total property tax, is set out in Chart 12 below. As shown in the Chart, assessment growth is estimated at 1% of the tax each year.

Going forward, MLTT revenue is forecasted to stabilize given the 2016 action of maximizing the revenue source by budgeting at 100% of actual experience. In fact, it assumes no decline in the future. If the property tax increase is kept at the rate of inflation, the total incremental tax revenue will be significantly lower than previously and

cannot offset the budget pressures. As a result, it is imperative the City explore all revenue sources to meet expected spending increases in order to offset future year operating budget pressures.

Chart 12
Incremental Revenue Growth
(% Change)

In order to reach financial sustainability and balance its budget, City Council needs to mature the City's governance and decision making process and set priorities based on public needs. Through this process, efforts and resources should focus on achieving the most efficient service delivery, rather than rely on funding from other orders of government.

The path forward requires both expenditure and revenue strategies; City Council needs to recognize the true costs of delivering its services so that services may be adequately funded. It is equally important to establish realistic financial and performance targets aimed at areas of growth versus those for reduction. The City cannot achieve fiscal sustainability through expenditure reductions alone. The City requires revenues that increase annually to help fund City services and hence it is not sustainable to keep total taxes below the rate of inflation.

In summary, it is appropriate for the 2017 Budget process that City Council include dialogue to determine the true needs of the City of Toronto, efficiently assess the costs of delivering services and recognize the potential needs for additional revenue annually. By their very nature, municipalities are generally inherently risk adverse in balancing the operating budget. It will be a continued challenge to manage the fiscal risks and demonstrate financial sustainability of the City.
